PROFESSIONAL SUMMARY

Frontend Developer with hands-on internship and collaborative project experience building responsive web applications using React.js, Next.js, JavaScript, and TypeScript. Experienced in developing reusable UI components, integrating APIs, implementing authentication, and building responsive user interfaces. Comfortable with Git-based collaboration and modern frontend tools. Seeking a remote Frontend Developer position to contribute to real-world projects and deliver maintainable, user-friendly web experiences.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend: React.js, Next.js, Tailwind CSS, Bootstrap, shadcn/ui
API & Authentication: REST APIs, Axios, Firebase Authentication, NextAuth.js, JWT
Backend & Database: Node.js, Express.js, MongoDB, Mongoose
Tools: Git, GitHub, VS Code, npm, Chrome DevTools, Vercel, Netlify
UI & Animation: Framer Motion, Responsive Web Design

PROJECTS

Fele Trip | March 01,2026 – June 30 2026 **Live Link**

Team Project (7+ Members)

Role: Frontend Developer Collaborated in a cross-functional team to build a scalable, multi-tenant e-commerce builder platform featuring dynamic sub-domain routing and highly interactive storefronts.

- Sub-domain Storefront Development: Engineered and optimized beauty-shop, a dedicated sub-domain e-commerce experience, using Next.js App Router and TypeScript for rigid type safety.
- Interactive & Polished UI: Crafted fluid, high-performance UI components and micro-interactions utilizing Framer Motion and shadcn/ui, significantly boosting user retention and visual appeal.
- Design Conflict Resolution: Proactively audited the collaborative codebase to resolve critical UI inconsistencies, layout shifts, and design conflicts, ensuring a seamless, pixel-perfect user experience across all viewports.
- Technologies Used: Next.js (App Router), TypeScript, React.js, Tailwind CSS, shadcn/ui, Framer Motion, Vercel.

Fast-feast (September, 2025 - October, 2025) **Live Link | GitHub Link**

Team Project (7 Members) | **Role:** Frontend Developer & Content Manager

Developed and managed frontend features for a full-stack food delivery platform with real-time order tracking and AI-based recommendations..

Key Features:

- **Dynamic Blog Management:** Implemented a complete blog system with listings, categories, detailed views, and full admin CRUD powered by MongoDB.
- **Engaging Homepage Experience:** Built responsive homepage sections, including Newsletter and Customer Review components, enriched with smooth animations for better user engagement..
- **Modern & Secure Pages:** Designed a fully responsive Career Page and improved overall user experience using Tailwind CSS and secure NextAuth authentication.

Technology Used: Next.js (App Router), React.js (Hooks), MongoDB,Mongoose,Tailwind CSS, NextAuth.js, Vercel
